### 2. The Human Dignity Trust

#### 2.1. About Us

The Human Dignity Trust (the Trust) is an organisation of international lawyers supporting local partners to uphold international and constitutional human rights law in countries where private, consensual sexual conduct between persons of the same sex and the expression of Trans people is criminalised.

Over 70 jurisdictions globally criminalise consensual same-sex intimacy, putting LGBT people beyond the protection of the law and fostering a climate of fear, stigma, discrimination and violence. Many of these laws sit alongside other sexual offences laws that discriminate against or fail to protect women, children and other marginalised groups.

The Trust provides technical legal assistance upon request to local human rights defenders, lawyers and governments seeking to eradicate discriminatory laws and improve protection against violence and hate crimes.

#### 2.2. Legislative Reform Programme

Since 2015, the Trust has been analysing the need and options for legislative reform of sexual offences and related laws that discriminate against LGBT people, women, children and other marginalised groups and the development of other protective legislation.

In this latest phase of our successful, ongoing programme of supporting legislative reform, the Trust has secured funding from the UK Foreign, Commonwealth and Development Office. This funding enables us to consolidate and build on work undertaken in the earlier phases and

to lay the groundwork for future phases, leading the way in providing technical expertise and resources to deliver reform of sexual offences and hate crime legislation.

We provide this support through legal research and tools, country and thematic policy papers, technical legal assistance with legislative drafting, consultation mechanisms and related legal processes, and complementary technical assistance with media and communications strategies.

The Services detailed under this Terms of Reference will therefore form part of our broader legislative reform programme, and an awareness of the Trust and the work we do is essential.

### **3. Background and Purpose**

In order to develop and deliver expert technical assistance to Commonwealth governments and other state stakeholders seeking to reform laws or policies, the preparation of thematic and country level research papers is essential to aid in the design and implementation of law reform efforts in selected Commonwealth countries. One key area of law, on which this Terms of Reference is exclusively focused, is sexual offences.

In many cases the sexual offences laws across the Commonwealth are, to a large extent, legacies of the British Empire. While these laws have long since been amended, updated or repealed in the UK, they remain on the statute books in many of the former colonies, despite the subsequent enactment of modern Constitutions and ratification of international human rights treaties with which many of these laws do not comply.

In some countries, sexual offences laws have been updated to reflect international norms and good practice. On occasion, such change has been effected through targeted reform of specific provisions and, in other cases, through a wholesale re-writing of the sexual offences legislation. In some cases, this has been driven by political leadership and in other cases it resulted from judicial decisions or other domestic and international pressure. Apart from updating their sexual offences legislation, some countries also choose to pursue additional protective measures for vulnerable populations, including anti-discrimination and/or hate crimes legislation.

The Trust is providing technical assistance to a number of Commonwealth governments to support the reform of discriminatory laws, with a particular focus on sexual offences laws that discriminate against women and girls and LGBT people and hate crimes laws. The purpose of the activities outlined in this assignment is to build on the Trust's previous work and advance the rights of vulnerable communities, through support to governments and civil society organisations.

The Trust has previously undertaken work on legislative reform of sexual offences in various
